

Danylo Didenko

Web Developer · AI-Assisted Software
Wrocław, Poland · myfreelanceworkit@gmail.com · portfoliodisagn.netlify.app

SUMMARY

Software engineering student and freelance web developer. I build production websites and AI-powered automation with Node.js, React and the Claude and OpenAI APIs. My daily work involves writing prompts, reviewing model-generated code and text, and correcting output that is wrong or low quality — evaluating what a model produces is a routine part of how I build software. Available part-time on a flexible schedule.

EXPERIENCE

Freelance Web Developer 2026 – present
Self-employed · Wrocław, Poland

- Design and build landing pages and business websites in hand-written HTML, CSS and JavaScript — no page builders, no template engines
- Built a Telegram booking bot in Node.js with database-level double-booking prevention, instant owner notifications and automated reminders
- Deliver projects end to end: requirements, design, implementation, deployment and handover
- Work with clients in Ukrainian, Russian, Polish and English

Warehouse Operative 2026 – present
Amazon · Wrocław, Poland

- Order fulfilment in a high-volume logistics centre, working to strict accuracy targets
- Consistent shift attendance alongside university studies and freelance work

SELECTED PROJECTS

Telegram Booking Bot t.me/DemoPortfolio_bot
Node.js · Telegraf · SQLite · node-cron

- Multi-step booking flow on inline keyboards; taken slots are hidden automatically
- Double booking blocked by a unique database index, not only by application logic
- Scheduled reminders sent to clients 24 hours before an appointment

Web Portfolio — six projects portfoliodisagn.netlify.app
HTML · CSS · JavaScript · SVG

- Commercial product landing pages and premium brand concepts, all mobile-responsive
- Interactive product demos built without external libraries

EDUCATION

Software Engineering — undergraduate, in progress
Dnipro University of Technology, Ukraine

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, HTML5, CSS3, SQL
Frameworks	Node.js, React, Next.js, Astro, Tailwind CSS, Telegraf
AI & tooling	Claude API, OpenAI API, prompt engineering, multi-agent orchestration, RAG concepts, Git, REST APIs, SQLite

LANGUAGES

Ukrainian	Native
Russian	Fluent
Polish	Working proficiency
English	Professional working proficiency — technical reading and writing
